CARTE POSTALE.

POSTKARTE.

The Palace is a large and handsome edifice with a fine Ionic portico which was erected in 1778-1786 from the designs of two French architects. Ignard and Peyre, for Clemens Wenceslaus, the last Elector of Treves who occupied this palace until 1794. Since 1845 it has been used as the official residence of the civil governor of the Rhine province. It contains some fine paintings and tapestry.
